DUBLIN, Aug. 10, 2015 /PRNewswire/ --

- **Second quarter revenues of \$735 million**
- **Second quarter reported \$0.49 diluted (GAAP) loss per share from continuing operations and \$1.08 adjusted diluted EPS from continuing operations**
- **U.S. Branded Pharmaceuticals second quarter revenue increase of 27 percent primarily attributable to the acquisition of Auxilium Pharmaceuticals**
- **U.S. Generic Pharmaceuticals continues strong growth in second quarter with 24 percent revenue increase over second quarter 2014**
- **International Pharmaceuticals second quarter results on-track and aligned with Company expectations**
- **Affirms revenue and adjusted diluted EPS guidance from continuing operations for full year 2015**

Endo International plc (NASDAQ: ENDP) (TSX: ENL) today reported second quarter 2015 financial results, including:

- Revenues of \$735 million, a 24 percent increase compared to second quarter 2014 revenues of \$593 million, including new product revenue from 2014 and 2015 strategic M&A transactions.
- Reported loss from continuing operations of \$91 million compared to second quarter 2014 reported income from continuing operations of \$41 million.
- Adjusted income from continuing operations of \$204 million, a 39 percent increase compared to second quarter 2014 adjusted income from continuing operations of \$147 million.
- Reported diluted loss per share from continuing operations of \$0.49 compared to second quarter 2014 reported diluted earnings per share from continuing operations of \$0.25.
- Adjusted diluted earnings per share from continuing operations of \$1.08 compared to second quarter 2014 adjusted diluted earnings per share from continuing operations of \$0.89.
- Adjusted diluted shares for the second quarter 2015 include the weighted average of approximately 28 million shares issued in June 2015 as part of the financing to fund the pending acquisition of Par Pharmaceutical. Adjusted diluted earnings per share for the second quarter 2015 excluding the effect of these additional shares would have been \$1.12.

"Our diversified business delivered strong financial results for the quarter and demonstrated the value that we expect to create through the continued execution of our strategy," said Rajiv De Silva, President and CEO of Endo. "We are close to completing the integration planning for our acquisition of Par and we remain excited by the strategic expansion of our product portfolio, R&D pipeline and long-term growth profile that the Par assets and Par talent joining Endo are expected to help provide. Looking ahead to the second half of 2015 and beyond, we are focused on accelerating growth in our current U.S. Branded Pharmaceuticals portfolio and continue to expect that our strategic M&A and pipeline development efforts will yield future growth drivers."

U.S. BRANDED PHARMACEUTICALS

During second quarter 2015 the U.S. Branded Pharmaceuticals business unit completed its integration of the Auxilium portfolio of products and subsequent restructuring of its field sales force.

Second quarter 2015 U.S. Branded Pharmaceuticals results include:

- Revenues of \$316 million, a 27 percent increase compared to second quarter 2014; this increase was primarily attributable to the strategic addition of Auxilium Pharmaceuticals.
- Net sales of OPANA[®] ER decreased 20 percent compared to second quarter 2014; this decrease was attributable to lower brand demand due to generic competition and lower average pricing.
- Net sales of Voltaren[®] Gel increased 11 percent compared to second quarter 2014; this increase was primarily attributable to demand growth.

U.S. GENERIC PHARMACEUTICALS

During the second quarter 2015, the U.S. Generic Pharmaceuticals business unit continued to advance key manufacturing, quality, commercial and R&D initiatives to support its organic growth objectives, while also planning for the integration of Par Pharmaceutical following the expected closing of the acquisition by the Company's reporting of third quarter 2015 results.

Second quarter 2015 U.S. Generic Pharmaceuticals results include:

- Net sales of \$338 million, a 24 percent increase compared to second quarter 2014; this increase was attributable to underlying organic growth of the business, growth from the addition of sales from our August 2014 acquisition of DAVA Pharmaceuticals and increased sales of the authorized generic version of LIDODERM[®], which launched in May 2014.

INTERNATIONAL PHARMACEUTICALS

As part of Endo's planned expansion of its International Pharmaceuticals business unit and to further diversify the Company's financial profile, it recently announced multiple strategic transactions designed to increase focus on the core pharmaceuticals business line within its Litha Group. This included the acquisition of a broad product and R&D portfolio and the strategic divestiture of a portfolio of non-core products. These transactions are expected to close in the third and fourth quarter 2015, respectively.

Second quarter 2015 International Pharmaceuticals results include:

- Net sales of \$81 million, primarily attributable to Paladin Labs and the Litha Group, which were acquired in February 2014, as well as sales by Grupo Farmaceutico Somar, acquired in July 2014.

2015 Financial Guidance

For the full twelve months ended December 31, 2015, at current exchange rates, Endo affirms revenue and adjusted diluted EPS guidance from continuing operations, prior to the impact of the pending close of the acquisition of Par Pharmaceutical and related financing activities. The Company estimates:

- Total revenue to be between \$2.90 billion and \$3.00 billion;
- Reported (GAAP) diluted earnings per share (EPS) from continuing operations now expected to be between \$1.42 and \$1.62 compared to \$1.70 and \$1.90 previously; and
- Adjusted diluted EPS from continuing operations to be between \$4.40 and \$4.60.

The Company's 2015 financial guidance is based on the following assumptions:

- Adjusted gross margin of between 64 percent and 65 percent;
- Adjusted operating expenses as a percentage of revenues to be between 23 percent and 24 percent;
- Adjusted interest expense of approximately \$310 million;
- Adjusted effective tax rate of between 13 percent and 14 percent;
- Adjusted diluted earnings per share from continuing operations assume full year adjusted diluted shares outstanding of approximately 180 million; and
- Full-year 2015 financial guidance excludes the impact of the pre-close financing activities related to the acquisition of Par.

Balance Sheet Update

Cash and Cash Equivalents increased by approximately \$2.1 billion in the six month period ended June 30, 2015. The increase is primarily attributable to the proceeds from the Company's June 2015 registered offering of ordinary shares. Endo issued 27,627,628 ordinary shares at a price of \$83.25 per share, for aggregate gross proceeds of approximately \$2.3 billion. Endo expects to use the net proceeds of the offering to fund the previously announced acquisition of Par Pharmaceutical Holdings, Inc.

In addition to the registered offering of ordinary shares, Endo has recently completed certain other pre-close financing activities related to the acquisition of Par. In July 2015, the company issued \$1.635 billion of 6.00% senior notes due July 2023. In addition, Endo secured commitments for \$3.8 billion of new senior secured credit facilities. The company intends to use the net proceeds from the equity and debt financing and cash on hand to fund the acquisition of Par and to refinance existing debt.

As part of refinancing existing debt, in July 2015, Endo redeemed all \$499,875,000 aggregate principal amount outstanding of its 7.00% Senior Notes due 2019. In April 2015, Endo also settled approximately \$98.7 million aggregate principal amount of Convertible Notes for approximately \$316.4 million in cash and ordinary shares.

Accounts payable and accrued expenses increased to approximately \$3.30 billion as of June 30, 2015. The increase is primarily attributable to an increase of approximately \$269 million to the Company's product liability reserve in the three month period ended June 30, 2015 for claims related to vaginal mesh cases, raising the reserve for vaginal mesh cases to approximately \$1.53 billion. The change in the reserve for product liability claims is attributable to Endo recently becoming aware of previously unknown U.S. mesh claims and a decrease in the applicable reduction factor from approximately 20 percent to 18 percent. Endo believes these claims are due, in large part, to certain trial verdicts affecting other mesh manufacturers and the resulting increase in advertising by plaintiffs' counsel seeking additional claimants. The Company believes that the current product liability accrual includes all known claims for which liability is probable and estimable.

Non-GAAP adjusted net income and its components and Non-GAAP adjusted diluted earnings per share amounts are not, and should not be viewed as, substitutes for U.S. GAAP net income and its components and diluted earnings per share amounts. Despite the importance of these measures to management in goal setting and performance measurement, we stress that these are Non-GAAP financial measures that have no standardized meaning prescribed by U.S. GAAP and, therefore, have limits in their usefulness to investors. Because of the non-standardized definitions, Non-GAAP adjusted net income and its components (unlike U.S. GAAP net income and its components) may not be comparable to the calculation of similar measures of other companies. These Non-GAAP financial measures are presented solely to permit investors to more fully understand how management assesses performance. See Endo's Current Report on Form 8-K furnished today to the Securities and Exchange Commission for an explanation of Endo's reasons for using non-GAAP measures.

Safe Harbor Statement

This press release contains forward-looking statements, including but not limited to the statements by Mr. De Silva and other statements regarding product development, market potential, expected growth and regulatory approvals, as well as Endo's earnings per share amounts, product net sales, revenue forecasts and any other statements that refer to Endo's expected, estimated or anticipated future results. Because forecasts are inherently estimates that cannot be made with precision, Endo's performance at times differs materially from its estimates and targets, and Endo often does not know what the actual results will be until after the end of the applicable reporting period. Therefore, Endo will not report or comment on its progress during a current quarter except through public announcement. Any statement made by others with respect to progress during a current quarter cannot be attributed to Endo.

All forward-looking statements in this press release reflect Endo's current analysis of existing trends and information and represent Endo's judgment only as of the date of this press release. Actual results may differ materially from current expectations based on a number of factors affecting Endo's businesses, including, among other things, the following: changing competitive, market and regulatory conditions; Endo's ability to obtain and maintain adequate protection for its intellectual property rights; the timing and uncertainty of the results of both the research and development and regulatory processes; domestic and foreign health care and cost containment reforms, including government pricing, tax and reimbursement policies; technological advances and patents obtained by competitors; the performance, including the approval, introduction, and consumer and physician acceptance of new products and the continuing acceptance of currently marketed products; the effectiveness of advertising and other promotional campaigns; the timely and successful implementation of strategic initiatives; the results of any pending or future litigation, investigations or claims; the uncertainty associated with the identification of and successful consummation and execution of external corporate development initiatives and strategic partnering transactions; and Endo's ability to obtain and successfully maintain a sufficient supply of products to meet market demand in a timely manner. In addition, U.S. and international economic conditions, including higher unemployment, political instability, financial hardship, consumer confidence and debt levels, taxation, changes in interest and currency exchange rates, international relations, capital and credit availability, the status of financial markets and institutions, fluctuations or devaluations in the value of sovereign government debt, as well as the general impact of continued economic volatility, can materially affect Endo's results. Therefore, the reader is cautioned not to rely on these forward-looking statements. Endo expressly disclaims any intent or obligation to update these forward-looking statements except as required to do so by law.

Additional information concerning the above-referenced risk factors and other risk factors can be found in press releases issued by Endo, as well as Endo's public periodic filings with the U.S. Securities and Exchange Commission and with securities regulators in Canada, including the discussion under the heading "Risk Factors" in Endo's 2014 Annual Report on Form 10-K and any subsequent Quarterly Reports on Form 10-Q.
