In this prospectus supplement, unless otherwise specified or the context otherwise requires, “Endo,” “the Company,” “we,” “our,” “us” or similar terms mean Endo Health Solutions Inc. (“EHSI”) and its subsidiaries prior to February 28, 2014 and Endo International plc and its subsidiaries thereafter.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Statements contained or incorporated by reference in this prospectus supplement contain information that includes or is based on “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 (as amended, the “Securities Act”) and Section 21E of the Securities Exchange Act of 1934 (as amended, the “Exchange Act”). These statements, including statements regarding the acquisition (the “Acquisition”) of Par Pharmaceutical Holdings, Inc. (“Par”), estimates of future revenues, future expenses, future net income and future net income per share, contained in Exhibit 99.1 (Item 7—Management’s Discussion and Analysis of Financial Condition and Results of Operations) of the Current Report on Form 8-K filed with the SEC on June 2, 2015 (the “Financial Statements Form 8-K”) and the section titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the Quarterly Reports on Form 10-Q for the quarters ended March 31, 2015 and June 30, 2015, respectively, each of which is incorporated by reference in this prospectus supplement, are subject to risks and uncertainties. Forward-looking statements include the information concerning our possible or assumed results of operations. Also, statements including words such as “believes,” “expects,” “anticipates,” “intends,” “estimates,” “plan,” “will,” “may” or similar expressions are forward-looking statements. We have based these forward-looking statements on our current expectations and projections about the growth of our business, our financial performance and the development of our industry. Because these statements reflect our current views concerning future events, these forward-looking statements involve risks and uncertainties. Investors should note that many factors, as described under the caption “Risk Factors” contained in this prospectus supplement (including with respect to the Acquisition) and in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014 (the “2014 Form 10-K”), as supplemented and otherwise enumerated by the Quarterly Report on Form 10-Q for the quarter ended June 30, 2015 (the “Second Quarter 2015 Form 10-Q”) and our Current Report on Form 8-K filed with the SEC on June 2, 2015 (the “Par Risk Factors Form 8-K”), and in this prospectus supplement, could affect our future financial results and could cause our actual results to differ materially from those expressed in forward-looking statements contained or incorporated by reference in this prospectus supplement.

We do not undertake any obligation to update our forward-looking statements after the date of this prospectus supplement for any reason, even if new information becomes available or other events occur in the future, except as may be required under applicable securities law. You are advised, however, to consult any further disclosures we make on related subjects in our reports with the SEC and with securities regulators in Canada on the System for Electronic Document Analysis and Retrieval (“SEDAR”). Also note that, as described under the caption “Risk Factors” contained in this prospectus supplement and in Item 1A of the 2014 Form 10-K,” as supplemented and otherwise enumerated by the Second Quarter 2015 Form 10-Q and the Par Risk Factors Form 8-K, we provide a cautionary discussion of the risks, uncertainties and possibly inaccurate assumptions relevant to our business and the business of Par. These are factors that, individually or in the aggregate, we think could cause our actual results to differ materially from expected and historical results. We note these factors for investors as permitted by Section 27A of the Securities Act and Section 21E of the Exchange Act. You should understand that it is not possible to predict or identify all such factors. Consequently, you should not consider this to be a complete discussion of all potential risks or uncertainties.

RISK FACTORS

Any investment in our ordinary shares involves risks. In addition to the other information included or incorporated by reference into this prospectus supplement and the accompanying prospectus, including the matters addressed in the section entitled “Cautionary Statement Regarding Forward-Looking Statements”, you should carefully consider the following risks before purchasing our ordinary shares. In addition, you should read and consider the risks associated with our business and our recent and proposed acquisitions, including the Acquisition, because these risks will also affect us. These risks can be found in the 2014 Form 10-K and the Second Quarter 2015 Form 10-Q, and incorporated by reference into this prospectus supplement and the accompanying prospectus. You should also read and consider the other information in this prospectus supplement and the accompanying prospectus and the other documents incorporated by reference into this prospectus supplement and the accompanying prospectus, including the risk factors included in the Par Risk Factors Form 8-K and incorporated by reference into this prospectus supplement. See “Where You Can Find More Information.”

Risks Related to This Offering and Ownership of Our Ordinary Shares

The trading prices of our ordinary shares may be volatile, and your investment in our ordinary shares could decline in value.

The market prices for securities of healthcare companies in general have been highly volatile and may continue to be highly volatile in the future. For example, in 2014, our shares traded between \$53.62 and \$82.16 per share on NASDAQ. The following factors, in addition to other risk factors described in this section, may cause the market value of our ordinary shares to fluctuate:

- FDA approval or disapproval of any of the drug applications we have submitted;
- the success or failure of our clinical trials;
- new data or new analyses of older data that raises potential safety or effectiveness issues concerning our approved products;
- product recalls;
- competitors announcing technological innovations or new commercial products;
- introduction of generic substitutes for our products, including the filing of Abbreviated New Drug Applications with respect to generic versions of our branded products;
- developments concerning our or others’ proprietary rights, including patents;
- competitors’ publicity regarding actual or potential products under development;
- regulatory developments in the U.S. and foreign countries, or announcements relating to these matters;
- period-to-period fluctuations in our financial results;
- new legislation in the U.S. relating to the development, sale or pricing of pharmaceuticals;
- a determination by a regulatory agency that we are engaging or have engaged in inappropriate activities, including entering into patent settlement agreements that the government may view as inappropriate or anti-competitive;
- litigation; and
- economic and other external factors, including market speculation or disasters and other crises.

Future sales or issuances of our ordinary shares in the public markets, or the perception of such sales, could depress the trading price of our ordinary shares.

The sale of a substantial number of ordinary shares or other equity-related securities in the public markets, or the perception that such sales could occur, could depress the market price of our ordinary shares and impair our ability to raise capital through the sale of additional equity securities. In connection with the Acquisition, we entered into a registration rights agreement (the “Registration Rights Agreement”) with the selling shareholders named

[Table of Contents](#)

herein, pursuant to which the selling shareholders may make up to four requests that we register or conduct an underwritten offering of the approximately 17.2 million ordinary shares the selling shareholders received in connection with the Acquisition, subject to certain conditions. The selling shareholders also may request that we include such ordinary shares in certain future registration statements or offerings of ordinary shares by us. We cannot predict the effect that future sales of ordinary shares or other equity-related securities would have on the market price of our ordinary shares.

All of our debt obligations, and any future indebtedness we may incur, will have priority over our ordinary shares with respect to payment in the event of a liquidation, dissolution or winding up.

In any liquidation, dissolution or winding up of the Company, our ordinary shares would rank below all debt claims against us. In addition, any convertible or exchangeable securities or other equity securities that we may issue in the future may have rights, preferences and privileges more favorable than those of our ordinary shares. As a result, holders of our ordinary shares will not be entitled to receive any payment or other distribution of assets upon the liquidation or dissolution until after our obligations to our debt holders and holders of equity securities that rank senior to our ordinary shares have been satisfied.

We have no plans to pay regular dividends on our ordinary shares, so shareholders may not receive funds without selling their ordinary shares.

While our board of directors will review our dividend policy from time to time, we currently do not intend to pay any cash dividends in the foreseeable future on our ordinary shares. Any declaration and payment of future dividends to holders of ordinary shares will be at the sole discretion of our board of directors and will depend on many factors, including our financial condition, earnings, capital requirements, level of indebtedness, statutory and contractual restrictions applying to the payment of dividends and other considerations that our board of directors deems relevant. In addition, our existing debt instruments restrict or prevent us from paying dividends on our ordinary shares. Agreements governing any future indebtedness, in addition to those governing our current indebtedness, may not permit us to pay dividends on our ordinary shares.

If securities analysts do not publish research or reports about our company, or if they issue unfavorable commentary about us or our industry or downgrade our ordinary shares, the price of our ordinary shares could decline.

The trading market for our ordinary shares depends in part on the research and reports that third-party securities analysts publish about our company and our industry. If one or more analysts cease coverage of our company, we could lose visibility in the market. In addition, one or more of these analysts could downgrade our ordinary shares or issue other negative commentary about our company or our industry. As a result of one or more of these factors, the trading price of our ordinary shares could decline.

Risks Related to The Acquisition

Loss of key personnel could impair the integration of the two businesses, lead to loss of customers and a decline in revenues, adversely affect the progress of pipeline products or otherwise adversely affect the operations of Endo and Par.

The success of the combined company will depend, in part, upon its ability to retain key employees, especially during the integration phase of the businesses of Endo and Par. Current and prospective employees of Endo and Par might experience uncertainty about their future roles with Endo following completion of the Acquisition, which might materially and adversely affect Endo's ability to retain key managers and other employees. In addition, competition for qualified personnel in the pharmaceutical industry is very intense. If Endo or Par lose key personnel or the combined company is unable to attract, retain and motivate qualified individuals or the associated costs to the combined company increase significantly, the combined company's business could be materially and adversely affected.

Endo's status as a foreign corporation for U.S. federal tax purposes could be affected by IRS action or a change in U.S. tax law.

On February 28, 2014, EHSI completed the acquisition of Paladin Labs Inc. ("Paladin"), and in connection therewith, EHSI and Paladin combined under a new company, Endo, incorporated in Ireland. A corporation is generally considered a tax resident in the jurisdiction of its organization or incorporation for U.S. federal income tax purposes. Because Endo is an Irish incorporated entity, it would generally be classified as a foreign corporation under these rules.

Section 7874 of the Internal Revenue Code, which we refer to as the Code, provides an exception to this general rule, however, under which a foreign incorporated entity may, in certain circumstances, be treated as a U.S. corporation for U.S. federal tax purposes. Endo believes that it has satisfied the requirements under Section 7874 of the Code to be treated as a foreign corporation, taking into account any impact of both the acquisition of Auxilium Pharmaceuticals, Inc. ("Auxilium") and the Acquisition in the analysis. There is limited guidance, however, regarding the application of Section 7874 of the Code. As a consequence, there can be no assurance that the IRS will agree with the position that Endo has satisfied the requirements under Section 7874 of the Code to be treated as a foreign corporation or that the IRS will not otherwise challenge Endo's status as a foreign corporation. If such a challenge by the IRS were successful, significant adverse tax consequences would result for Endo.

Further, recent legislative and administrative proposals have addressed Section 7874 of the Code, some of which, if enacted, could have prospective or retroactive application to Endo, its shareholders and affiliates. Consequently, there can be no assurance that there will not exist in the future a change in law that might cause Endo to be treated as a domestic corporation for U.S. federal income tax purposes, including with retroactive effect. If such a change in law were implemented, significant adverse tax consequences would result for Endo.

The combined company will have significantly higher levels of indebtedness than Endo and Par had prior to the Acquisition, which will result in substantial debt and debt service obligations.

After giving effect to the Acquisition and related transactions, as of June 30, 2015, we would have had total debt of \$9.0 billion (excluding unamortized discount of \$5.7 million), consisting of \$3.8 billion of secured indebtedness and \$5.2 billion of other debt, and we would have had availability of \$998.1 million under our revolving credit facility, subject to satisfaction of certain conditions.

Our substantial indebtedness may:

- make it difficult for us to satisfy our financial obligations, including making scheduled principal and interest payments on our indebtedness;
- limit our ability to borrow additional funds for working capital, capital expenditures, acquisitions or other general business purposes;
- limit our ability to use our cash flow or obtain additional financing for future working capital, capital expenditures, acquisitions or other general business purposes;
- require us to use a substantial portion of our cash flow from operations to make debt service payments;
- limit our flexibility to plan for, or react to, changes in our business and industry;
- place us at a competitive disadvantage compared to our less leveraged competitors; and
- increase our vulnerability to the impact of adverse economic and industry conditions.

We may also incur additional indebtedness in the future.

Endo and Par may fail to realize all of the anticipated benefits of the Acquisition or those benefits may take longer to realize than expected. The combined company may also encounter significant difficulties in integrating the two businesses.

The ability of Endo and Par to realize the anticipated benefits of the Acquisition will depend, to a large extent, on the combined company's ability to integrate the businesses of Endo and Par. The combination of two

[Table of Contents](#)

independent businesses is a complex, costly and time-consuming process. As a result, Endo and Par will be required to devote significant management attention and resources to integrating their business practices and operations. The integration process may disrupt the businesses and, if implemented ineffectively, would restrict the realization of the full expected benefits. The failure to meet the challenges involved in integrating the two businesses and to realize the anticipated benefits of the transaction could cause an interruption of, or a loss of momentum in, the activities of the combined company and could adversely affect the results of operations of the combined company.

In addition, the overall integration of the businesses may result in material unanticipated problems, expenses, liabilities, competitive responses, loss of customer relationships and diversion of management's attention. The difficulties of combining the operations of the companies include, among others:

- diversion of management's attention to integration matters;
- difficulties in achieving anticipated cost savings, synergies, business opportunities and growth prospects from the combination of the businesses of Endo and Par;
- difficulties in the integration of operations and systems;
- difficulties in conforming standards, controls, procedures and accounting and other policies, business cultures and compensation structures between the two companies;
- difficulties in the assimilation of employees;
- difficulties in managing the expanded operations of a significantly larger and more complex company;
- challenges in retaining existing customers and obtaining new customers;
- potential unknown liabilities or larger liabilities than projected, adverse consequences and unforeseen increased expenses associated with the Acquisition; and
- difficulties in coordinating a geographically dispersed organization.

Many of these factors will be outside the control of Endo or Par, and any one of them could result in increased costs, decreases in the amount of expected revenues and diversion of management's time and energy, which could materially impact the business, financial condition and results of operations of the combined company. In addition, even if the operations of the businesses of Endo and Par are integrated successfully, the full benefits of the Acquisition may not be realized, including the synergies, cost savings or sales or growth opportunities that are expected. These benefits may not be achieved within the anticipated time frame, or at all. Additional unanticipated costs may be incurred in the integration of the businesses of Endo and Par. All of these factors could negatively impact the trading price of the ordinary shares following the Acquisition. As a result, we cannot assure you that the combination of Endo and Par will result in the realization of the full benefits anticipated from the Acquisition.

The benefits of the Acquisition are also subject to a variety of other factors, many of which are beyond Par's and Endo's ability to control, such as changes in the rate of economic growth in jurisdictions in which the combined company will do business, the financial performance of the combined business in various jurisdictions, currency exchange rate fluctuations, and significant changes in trade, monetary or fiscal policies, including changes in interest rates, and tax law of the jurisdictions in which the combined company will do business. The impact of these factors, individually and in the aggregate, is difficult to predict, in part because the occurrence of the events or circumstances described in such factors may be interrelated, and the impact to the combined company of the occurrence of any one of these events or circumstances could be compounded or, alternatively, reduced, offset, or more than offset, by the occurrence of one or more of the other events or circumstances described in such factors.

Endo and Par will incur direct and indirect costs as a result of the Acquisition.

Endo and Par will incur substantial expenses in connection with completion of the Acquisition, and over a period of time following the completion of the Acquisition, Endo further expects to incur substantial expenses in connection with coordinating the businesses, operations, policies and procedures of Endo and Par. While Endo has assumed that a certain level of transaction and coordination expenses will be incurred, there are a number of factors beyond Endo's control that could affect the total amount or the timing of these transaction and coordination expenses. Many of the expenses that will be incurred, by their nature, are difficult to estimate accurately. These expenses may exceed the costs historically borne by Endo and Par.

The completion of the Acquisition may result in ratings agencies and/or securities analysts taking actions which may adversely affect the combined company's cost of capital, as well as the trading price of the ordinary shares.

In connection with the completion of the Acquisition, ratings agencies may reevaluate Endo's ratings. A downgrade may increase Endo's cost of borrowing, may negatively impact Endo's ability to raise additional debt capital, may negatively impact Endo's ability to successfully compete in the marketplace and may negatively impact the willingness of counterparties to deal with Endo, each of which could have a material adverse effect on the business, financial condition and results of operations of the combined company and the trading price of the ordinary shares.

Endo's and Par's actual financial positions and results of operations may differ materially from the unaudited pro forma combined financial data incorporated by reference in this prospectus supplement.

The unaudited pro forma combined financial information contained in our Current Report on Form 8-K filed with the SEC on August 7, 2015 and incorporated by reference in this prospectus supplement is presented for illustrative purposes only and may not be an indication of what Endo's financial position or results of operations would have been had the Acquisition been completed on the dates indicated. The unaudited pro forma combined financial information has been derived from the audited and unaudited historical financial statements of Endo and Par and certain adjustments and assumptions have been made regarding the combined company after giving effect to the Acquisition and related transactions. The assets and liabilities of Par have been measured at fair value based on various preliminary estimates using assumptions that Endo's management believes are reasonable utilizing information currently available. The process for estimating the fair value of acquired assets and assumed liabilities requires the use of judgment in determining the appropriate assumptions and estimates. These estimates and assumptions may be revised as additional information becomes available and as additional analyses are performed. Differences between preliminary estimates in the pro forma financial information and the final acquisition accounting, as well as between the assumed and actual financing sources and terms, will occur and could have a material impact on the pro forma financial information and the combined company's financial position and future results of operations.

In addition, the assumptions used in preparing the pro forma combined financial information may not prove to be accurate, and other factors may affect the combined company's financial condition or results of operations following the Acquisition. Any potential decline in Endo's financial condition or results of operations may cause significant variations in the trading price of the ordinary shares following the Acquisition.

PLAN OF DISTRIBUTION

The selling shareholders may sell the securities offered by this prospectus supplement from time to time in one or more transactions, including without limitation:

- directly to one or more purchasers, including affiliates;
- through agents;
- to or through underwriters, brokers or dealers; or
- through a combination of any of these methods.

In addition, the manner in which the selling shareholders may sell the securities includes, without limitation, through:

- a block trade in which a broker-dealer will attempt to sell as agent, but may position or resell a portion of the block, as principal, in order to facilitate the transaction;
- purchases by a broker-dealer, as principal, and resale by the broker-dealer for its account;
- ordinary brokerage transactions and transactions in which a broker solicits purchasers; or
- privately negotiated transactions.

These transactions may occur:

- on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;
- in the over-the-counter market; or
- in transactions otherwise than on these exchanges or systems or in the over-the-counter market.

The selling shareholders may also enter into hedging transactions. For example, the selling shareholders may:

- enter into transactions with a broker-dealer or affiliate thereof in connection with which such broker-dealer or affiliate will engage in short sales of the ordinary shares pursuant to this prospectus supplement, in which case such broker-dealer or affiliate may use ordinary shares received from the selling shareholders to close out its short positions;
- sell securities short and redeliver such shares to close out the selling shareholders' short positions;
- enter into option or other types of transactions that require the selling shareholders to deliver ordinary shares to a broker-dealer or an affiliate thereof, who will then resell or transfer the ordinary shares under this prospectus supplement; or
- loan or pledge the ordinary shares to a broker-dealer or an affiliate thereof, who may sell the loaned shares or, in an event of default in the case of a pledge, sell the pledged shares pursuant to this prospectus supplement.

In addition, the selling shareholders may enter into derivative or hedging transactions with third parties, or sell securities not covered by this prospectus supplement to third parties in privately negotiated transactions. In connection with such a transaction, the third parties may sell securities covered by and pursuant to this prospectus supplement. If so, the third party may use securities borrowed from the selling shareholders to settle such sales and may use securities received from the selling shareholders to close out any related short positions. The selling

[Table of Contents](#)

shareholders may also loan or pledge securities covered by this prospectus supplement to third parties, who or which may sell the loaned securities or, in an event of default in the case of a pledge, sell the pledged securities pursuant to this prospectus supplement.

If required by applicable law, a supplement to this prospectus supplement with respect to each offering of securities will state the terms of the offering of the securities, including:

- the name or names of any underwriters or agents and the amounts of securities underwritten or purchased by each of them, if any;
- the public offering price or purchase price of the securities and the net proceeds to be received from the sale;
- any delayed delivery arrangements;
- any underwriting discounts or agency fees and other items constituting underwriters' or agents' compensation;
- any discounts or concessions allowed or reallocated or paid to dealers; and
- any securities exchange or markets on which the securities may be listed.

The offer and sale of the securities described in this prospectus supplement by the selling shareholders, the underwriters or the third parties described above may be effected from time to time in one or more transactions, including privately negotiated transactions, either:

- at a fixed price or prices, which may be changed;
- at market prices prevailing at the time of sale;
- at prices related to the prevailing market prices; or
- at negotiated prices.

General

Any public offering price and any discounts, commissions, concessions or other items constituting compensation allowed or reallocated or paid to underwriters, dealers, agents or remarketing firms may be changed from time to time. Underwriters, dealers, agents and remarketing firms that participate in the distribution of the offered securities may be "underwriters" as defined in the Securities Act. Any discounts or commissions and any profits they receive on the resale of the offered securities may be treated as underwriting discounts and commissions under the Securities Act. The selling shareholders will identify any underwriters, agents or dealers and describe their commissions, fees or discounts in a supplement to this prospectus supplement, if any.

Underwriters and Agents

If underwriters are used in a sale, they will acquire the offered securities for their own account. The underwriters may resell the offered securities in one or more transactions, including negotiated transactions. These sales may be made at a fixed public offering price or prices, which may be changed, at market prices prevailing at the time of the sale, at prices related to such prevailing market price or at negotiated prices. The selling shareholders may offer the securities to the public through an underwriting syndicate or through a single underwriter. The underwriters in any particular offering will be mentioned in a supplement to this prospectus supplement, if any.

Unless otherwise specified in connection with any particular offering of securities, the obligations of the underwriters to purchase the offered securities will be subject to certain conditions contained in an underwriting agreement that we and any selling shareholders will enter into with the underwriters at the time of the sale to them. The underwriters will be obligated to purchase all of the securities of the series offered if any of the securities are purchased, unless otherwise specified in connection with any particular offering of securities. Any initial offering price and any discounts or concessions allowed, reallocated or paid to dealers may be changed from time to time.

[Table of Contents](#)

The selling shareholders may designate agents to sell the offered securities. Unless otherwise specified in connection with any particular offering of securities, the agents will agree to use their best efforts to solicit purchases for the period of their appointment. The selling shareholders may also sell the offered securities to one or more remarketing firms, acting as principals for their own accounts or as agents for the selling shareholders. These firms will remarket the offered securities upon purchasing them in accordance with a redemption or repayment pursuant to the terms of the offered securities. If required, a supplement to this prospectus supplement will identify any remarketing firm and will describe the terms of its agreement, if any, with the selling shareholders and its compensation.

In connection with offerings made through underwriters or agents, the selling shareholders may enter into agreements with such underwriters or agents pursuant to which the selling shareholders receive our outstanding securities in consideration for the securities being offered to the public for cash. In connection with these arrangements, the underwriters or agents may also sell securities covered by this prospectus supplement to hedge their positions in these outstanding securities, including in short sale transactions. If so, the underwriters or agents may use the securities received from the selling shareholders under these arrangements to close out any related open borrowings of securities.

Dealers

The selling shareholders may sell the offered securities to dealers as principals. The selling shareholders may negotiate and pay dealers' commissions, discounts or concessions for their services. The dealer may then resell such securities to the public either at varying prices to be determined by the dealer or at a fixed offering price agreed to with the applicable selling shareholder at the time of resale. Dealers engaged by any selling shareholder may allow other dealers to participate in resales.

Direct Sales

The selling shareholders may choose to sell the offered securities directly. In this case, no underwriters or agents would be involved.

Institutional Purchasers

The selling shareholders may authorize agents, dealers or underwriters to solicit certain institutional investors to purchase offered securities on a delayed delivery basis pursuant to delayed delivery contracts providing for payment and delivery on a specified future date. The applicable supplement to this prospectus supplement, if any, will provide the details of any such arrangement, including the offering price and commissions payable on the solicitations.

The selling shareholders will enter into such delayed contracts only with institutional purchasers that the applicable selling shareholder approves. These institutions may include commercial and savings banks, insurance companies, pension funds, investment companies and educational and charitable institutions.

Electronic Auctions

The selling shareholders may also make sales through the Internet or through other electronic means.

Such electronic system may allow bidders to directly participate, through electronic access to an auction site, by submitting conditional offers to buy that are subject to acceptance by the selling shareholders, and which may directly affect the price or other terms and conditions at which such securities are sold. These bidding or ordering systems may present to each bidder, on a so-called "real-time" basis, relevant information to assist in making a bid, such as the clearing spread at which the offering would be sold, based on the bids submitted, and whether a bidder's individual bids would be accepted, prorated or rejected.

[Table of Contents](#)

Upon completion of such an electronic auction process, securities will be allocated based on prices bid, terms of bid or other factors. The final offering price at which securities would be sold and the allocation of securities among bidders would be based in whole or in part on the results of the Internet or other electronic bidding process or auction.

Indemnification; Other Relationships

The selling shareholders may have agreements with agents, underwriters, dealers and remarketing firms to indemnify them against certain civil liabilities, including liabilities under the Securities Act. Agents, underwriters, dealers and remarketing firms, and their affiliates, may engage in transactions with, or perform services for, us in the ordinary course of business. This includes commercial banking and investment banking transactions.

Stabilization and Other Transactions

In connection with any offering of ordinary shares, the underwriters may purchase and sell ordinary shares in the open market. These transactions may include short sales, syndicate covering transactions and stabilizing transactions. Short sales involve syndicate sales of ordinary shares in excess of the number of shares to be purchased by the underwriters in the offering, which creates a syndicate short position. "Covered" short sales are sales of shares made in an amount up to the number of shares represented by the underwriters' over-allotment option. In determining the source of shares to close out the covered syndicate short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option. Transactions to close out the covered syndicate short involve either purchases of the ordinary shares in the open market after the distribution has been completed or the exercise of the over-allotment option. The underwriters may also make "naked" short sales of shares in excess of the over-allotment option. The underwriters must close out any naked short position by purchasing ordinary shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of bids for or purchases of shares in the open market while the offering is in progress for the purpose of pegging, fixing or maintaining the price of the securities.

In connection with any offering, the underwriters may also engage in penalty bids. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the securities originally sold by the syndicate member are purchased in a syndicate covering transaction to cover syndicate short positions. Stabilizing transactions, syndicate covering transactions and penalty bids may cause the price of the securities to be higher than it would be in the absence of the transactions. The underwriters may, if they commence these transactions, discontinue them at any time.

Fees and Commissions

In compliance with the guidelines of the Financial Industry Regulatory Authority (the "FINRA"), the aggregate maximum discount, commission or agency fees or other items constituting underwriting compensation to be received by any FINRA member or independent broker-dealer will not exceed 8% of any offering pursuant to any prospectus supplement.

ENDO

Endo is an Ireland-domiciled, global specialty pharmaceutical company focused on branded and generic pharmaceuticals. We aim to be the premier partner to healthcare professionals and payment providers, delivering an innovative suite of branded and generic drugs to meet patients’ needs. Our major subsidiary in the United States is EHSI, which is based in Malvern, Pennsylvania, and is the headquarters for our United States operations.

We regularly evaluate and, where appropriate, execute on opportunities to expand through the acquisition of products and companies in areas that will serve patients and customers and that we believe will offer above average growth characteristics and attractive margins. In particular, we look to continue to enhance our product lines by acquiring or licensing rights to additional products and regularly evaluate selective acquisition and license opportunities.

On May 18, 2015, we announced that we had entered into a definitive agreement to acquire Par Pharmaceutical Holdings, Inc. (“Par”), a pharmaceutical company that develops, licenses, manufactures, markets and distributes generic drugs. Par focuses on high-barrier-to-entry products that are difficult to formulate, difficult to manufacture or face complex legal and regulatory challenges. Par operates in two business segments, (i) Par Pharmaceutical, which includes generic products marketed under Par Pharmaceutical and sterile products marketed under Par Sterile Products, LLC (“Par Sterile,” formerly known as JHP Pharmaceuticals, LLC); and (ii) Par Specialty Pharmaceuticals (“Par Specialty,” formerly known as Strativa Pharmaceuticals), which markets two branded products, Nascobal[®] Nasal Spray and Megace[®] ES.

In November 2010, EHSI acquired Generics International (US Parent), Inc. (doing business as Qualitest Pharmaceuticals (“Qualitest”)), a leading U.S.-based privately held generics company. Qualitest provides high-quality generic pharmaceuticals. Qualitest, with the recent acquisitions of Boca Pharmacal LLC (“Boca”) in February 2014 and DAVA Pharmaceuticals, Inc. (“DAVA”) in August 2014, is the third largest U.S. generics company based on extended units sold. Qualitest’s product portfolio is comprised of over 775 products within over 140 product families. The product portfolio includes tablets, capsules, creams, ointments, suppositories, and liquids.

In June 2011, EHSI acquired American Medical Systems Holdings, Inc. (“AMS”), a provider of devices and therapies for treating male and female pelvic health conditions. On February 24, 2015, our board of directors approved a plan to sell the Company’s AMS business, which comprises the entirety of our Devices segment. Subsequently, the Company entered into a definitive agreement to sell the Men’s Health and Prostate Health components of the AMS business to Boston Scientific Corporation for up to \$1.65 billion, with \$1.6 billion in upfront cash. The Company is also eligible to receive a potential milestone payment of \$50 million in cash conditioned on Boston Scientific achieving certain product revenue milestones in the Men’s Health and Prostate Health components in 2016. In addition, Boston Scientific Corporate will pay \$60.0 million in exchange for 60,000 shares of Series B Non-Voting Preferred Stock issued by American Medical Systems Holdings, Inc. The preferred stock entitles the holder to dividends payable quarterly at an initial annual rate of 7.25%, which will increase by 0.25% each year on January 1, from 2018 until the rate equals 11.50%. While the preferred stock remains outstanding, American Medical Systems Holdings, Inc. will be subject to certain affirmative and negative covenants, including an obligation to maintain assets in excess of the liquidation preference of the preferred stock, and restrictions on the sale of assets and the incurrence of certain indebtedness. The preferred stock matures and becomes mandatorily redeemable in 2035. The transaction with Boston Scientific Corporation is expected to close in the third quarter of 2015, subject to customary conditions, including the expiration or termination of any applicable waiting periods under applicable competition laws. In addition, the Company is currently pursuing a sale of the Women’s Health component of the AMS business.

On October 31, 2013, the Company was incorporated in Ireland as a private limited company and re-registered effective February 18, 2014 as a public limited company. It was established for the purpose of facilitating the business combination between EHSI and Paladin Labs Inc. (“Paladin”). On February 28, 2014, the Company acquired all of the shares of Paladin and a subsidiary of the Company merged with and into EHSI, with EHSI surviving the merger. As a result of these transactions, the former shareholders of EHSI and Paladin became the shareholders of the Company, and both EHSI and Paladin became the Company’s indirect wholly-owned subsidiaries.

Paladin is a specialty pharmaceutical company focused on acquiring and in-licensing innovative pharmaceutical products for the Canadian and world markets. Paladin’s key products serve growing therapeutic areas, including attention deficit hyperactivity disorder (“ADHD”), pain, urology and allergy. In addition to its Canadian operations, Paladin owns Litha Healthcare Group Limited in South Africa.

Prior to our acquisition of Paladin, we operated across our diversified businesses in four key segments, Endo Pharmaceuticals, Qualitest, AMS and HealthTronics, in key therapeutic areas including pain management, urology, oncology and endocrinology. On February 28, 2014, we announced the commencement of reporting our diversified businesses in four key segments, U.S. Branded Pharmaceuticals, U.S. Generic Pharmaceuticals, Devices and International Pharmaceuticals. The first three segments are generally aligned with the previously mentioned first three key segments, namely, Endo Pharmaceuticals, Qualitest and AMS. Our operation of the International Pharmaceuticals business commenced following the Paladin acquisition. As a result of the plan to sell the Company’s AMS business, the three remaining reportable business segments in which the Company now operates are U.S. Branded Pharmaceuticals, U.S. Generic Pharmaceuticals and International Pharmaceuticals.

[Table of Contents](#)

The operating results of our HealthTronics and AMS businesses are reported as Discontinued operations, net of tax in the Consolidated Statements of Operations. In January 2014, EHSI entered into a definitive agreement to sell our HealthTronics business and the sale was completed on February 3, 2014.

On January 29, 2015, we acquired Auxilium Pharmaceuticals, Inc. (“Auxilium”), a fully-integrated specialty biopharmaceutical company with a focus on developing and commercializing innovative products for specific patients’ needs. Auxilium, with a broad range of first- and second-line products across multiple indications, is an emerging leader in the men’s healthcare sector and has strategically focused its product portfolio and pipeline in orthopedics, dermatology and other therapeutic areas.

We have a portfolio of branded pharmaceuticals offered by our U.S. Branded Pharmaceuticals segment that includes established brand names such as Lidoderm®, Opana® ER, Voltaren® Gel, Percocet®, Fortesta® Gel, Frova®, Supprelin® LA, Valstar®, Vantas®, Sumavel® DosePro®, Aveed®, Natesto™, XIAFLEX® and Testim®. Our non-branded U.S. Generic Pharmaceuticals portfolio currently consists of products primarily focused in pain management through a differentiated portfolio of controlled substances and liquids. The International Pharmaceuticals segment includes a variety of specialty pharmaceutical products and certain medical devices for the Canadian, Latin American, South African and world markets, which we acquired in the Paladin acquisition and Grupo Farmacéutico Somar, Sociedad Anónima Promotora de Inversión de Capital Variable (“Somar”), which we acquired in July 2014. Paladin’s key products serve growing therapeutic areas, including ADHD, pain, urology and allergy. Somar develops, manufactures and markets high-quality generic, branded generic and over-the-counter products across key market segments including dermatology and anti-infectives.

Our ordinary shares are traded on NASDAQ under the ticker symbol “ENDP,” and on TSX under the ticker symbol “ENL.”

Par Acquisition

On May 18, 2015, the Company, Par, our subsidiaries, Endo Limited, Endo Health Solutions Inc., Hawk Acquisition Ireland Limited and Hawk Acquisition ULC (“Merger Sub”), and Shareholder Representative Services LLC, solely as representative of the Par stockholders, entered into an agreement and plan of merger (the “Merger Agreement”). The Merger Agreement provides for, upon the terms and subject to the conditions set forth in the Merger Agreement, the merger of Merger Sub with and into Par, with Par continuing as the surviving corporation and becoming an indirect wholly-owned subsidiary of the Company (the “Acquisition”). Pursuant to the Merger Agreement, Par will become our indirect wholly-owned subsidiary for consideration of approximately 18 million ordinary shares of the Company and \$6.50 billion in cash (including the repayment and assumption of Par’s existing debt).

Par is a specialty pharmaceutical company that develops, manufactures and markets safe, innovative and cost-effective pharmaceuticals that help improve patient quality of life. Par has a generics portfolio of approximately 95 products across an extensive range of dosage forms and delivery systems, including immediate and extended release oral solids (tablets, orally disintegrating tablets, capsules and powders), injectables, nasal sprays, ophthalmics (which are sterile pharmaceutical preparations administered for ocular conditions) and transdermal patches (which are medicated adhesive patches designed to deliver the drug through the skin).

Par operates in two business segments, Par Pharmaceutical, which includes generic products marketed under Par Pharmaceutical and sterile products marketed under Par Sterile, and Par Specialty. Par Pharmaceutical offers a line of high-barrier-to-entry generic drugs, while Par Specialty provides niche, innovative brands. Par Sterile develops, manufactures and markets both branded and generic aseptic injectable pharmaceuticals.

Par is currently a privately-held company that was acquired through a take-private transaction by an affiliate of TPG Capital, L.P. in 2012. The Acquisition is expected to close in the second half of 2015 and is subject to regulatory approval in the United States and certain other jurisdictions and other customary closing conditions.

Capital Structure

Authorized Share Capital

Our authorized share capital is €40,000 and \$100,000, divided into 4,000,000 euro deferred shares of €0.01 each and 1,000,000,000 ordinary shares of \$0.0001 each, respectively.

We may issue shares subject to the maximum authorized share capital contained in our memorandum and articles of association. The authorized share capital may be increased or reduced by a resolution approved by a simple majority of the votes cast at a general meeting of our shareholders (referred to under Irish law as an “ordinary resolution”). The shares comprising our authorized share capital may be divided into shares of such nominal value as the resolution shall prescribe. As a matter of Irish company law, the directors of a company may issue new ordinary shares without shareholder approval once authorized to do so by the memorandum and articles of association or by an ordinary resolution adopted by the shareholders at a general meeting. The authorization must include the maximum amount that may be allotted and may be granted for a maximum period of five years, at which point it must be renewed by the shareholders by an ordinary resolution. Our articles of association authorize our board of directors to issue new ordinary shares without shareholder approval for a period of five years from the date on which they were adopted, which occurred on February 25, 2014.

The rights and restrictions to which our ordinary shares are subject are prescribed in our articles of association.

We may, by ordinary resolution and without obtaining any vote or consent of the holders of any class or series of shares, unless expressly provided by the terms of that class or series of shares, provide from time to time for the issuance of other classes or series of shares and to establish the characteristics of each class or series, including the number of shares, designations, relative voting rights, dividend rights, liquidation and other rights, redemption, repurchase or exchange rights and any other preferences and relative, participating, optional or other rights and limitations not inconsistent with applicable law.

Irish law does not recognize fractional shares held of record. Accordingly, our articles of association do not provide for the issuance of fractional shares, and our official Irish register will not reflect any fractional shares.

Whenever an alteration as a result of an issuance or reorganization, consolidation, division or subdivision of our share capital would result in any shareholder becoming entitled to fractions of a share, no such fractions shall be issued or delivered to any shareholder. All such fractions of a share will be aggregated into whole shares and sold in the open market at prevailing market prices and the aggregate cash proceeds from such sale (net of tax, commissions, costs and other expenses) shall be distributed on a pro rata basis, rounding down to the nearest cent, to each shareholder who would otherwise have been entitled to receive fractions of a share.

Issued Share Capital

As of June 1, 2015, 178.8 million of our ordinary shares and 4 million of our euro deferred shares were issued and outstanding.

Preemption Rights and Share Options

Under Irish law, certain statutory pre-emption rights apply automatically in favor of shareholders where shares are to be issued for cash. However, we have opted out of these pre-emption rights in our articles of association as permitted under Irish company law. Because Irish law requires this opt-out to be renewed every five years by a resolution approved by not less than 75% of the votes of our shareholders cast at a general meeting (referred to under Irish law as a “special resolution”), this opt-out must be so renewed in accordance with Irish statutory requirements. If the opt-out is not renewed, shares issued for cash must be offered our existing shareholders on a pro rata basis to their existing shareholding before the shares can be issued to any new shareholders. The statutory pre-emption rights do not apply where shares are issued for non-cash consideration (such as in a share-for-share acquisition) and do not apply to the issue of non-equity shares (that is, shares that have the right to participate only up to a specified amount in any income or capital distribution) or where shares are issued pursuant to an employee option or similar equity plan.

Our memorandum and articles of association provide that, subject to any shareholder approval requirement under any laws, regulations or the rules of any stock exchange to which we are subject, our board of directors is authorized, from time to time, in its discretion, to grant such persons, for such periods and upon such terms as our board of directors deems advisable, options to purchase such number of shares of any class or classes or of any series of any class as our board of directors may deem advisable, and to cause warrants or other appropriate instruments evidencing such options to be issued. The Companies Act provides that directors may issue share warrants or options without shareholder approval once authorized to do so by the articles of association or an ordinary resolution of shareholders. We are subject to the rules of NASDAQ, TSX and the United States Internal Revenue Code of 1986 (the “Code”) that require shareholder approval of certain equity plan and share issuances. Our board of directors may issue shares upon exercise of warrants or options without shareholder approval or authorization (up to the relevant authorized share capital limit).

Dividends

Under Irish law, dividends and distributions may only be made from distributable reserves. Distributable reserves generally means accumulated realized profits less accumulated realized losses and includes reserves created by way of capital reduction. In addition, no distribution or dividend may be made unless our net assets are equal to, or in excess of, the aggregate of our called up share capital plus undistributable reserves and the distribution does not reduce our net assets below such aggregate. Undistributable reserves include the share premium account, the capital redemption reserve fund and the amount by which our accumulated unrealized profits, so far as not previously utilized by any capitalization, exceed our accumulated unrealized losses, so far as not previously written off in a reduction or reorganization of capital. The determination as to whether or not we have sufficient distributable reserves to fund a dividend must be made by reference to our “relevant accounts.” Our “relevant accounts” will be either our last set of unconsolidated annual audited financial statements or other financial statements properly prepared in accordance with the Companies Act (not in accordance with U.S. GAAP), which give a “true and fair view” of our unconsolidated financial position and accord with accepted accounting practice. Our relevant accounts must be filed in the Companies Registration Office (the official public registry for companies in Ireland).

Our memorandum and articles of association authorize our board of directors to declare dividends without shareholder approval to the extent they appear justified by profits. Our board of directors may also recommend a dividend to be approved and declared by the shareholders at a general meeting and may direct that the payment be made by distribution of assets, shares or cash. No dividend issued may exceed the amount recommended by our board of directors.

Dividends may be declared and paid in the form of cash or non-cash assets and may be paid in dollars or any other currency. Our board of directors may deduct from any dividend payable to any shareholder any amounts payable by such shareholder to us in relation to our shares.

Share Repurchases, Redemptions and Conversions

Overview

Our memorandum and articles of association provide that any ordinary share that we have agreed to acquire shall be deemed to be a redeemable share, unless our board of directors resolves otherwise. Accordingly, for Irish company law purposes, our repurchase of ordinary shares will technically be effected as a redemption of those shares as described below under “—Repurchases and Redemptions by Endo.” If our memorandum and articles of association did not contain such provision, all repurchases we undertake would be subject to many of the same rules that apply to purchases of our ordinary shares by our subsidiaries described below under “Purchases by Subsidiaries of Endo,” including the shareholder approval requirements described below, and the requirement that any purchases on market be effected on a “recognized stock exchange,” which, for purposes of the Companies Act, includes NASDAQ but does not include TSX.

Except where otherwise noted, references elsewhere in this prospectus to repurchasing or buying back our ordinary shares refer to the redemption of ordinary shares by us or the purchase of our ordinary shares by one of our subsidiaries, in each case in accordance with our memorandum and articles of association and Irish law as described below.

Repurchases and Redemptions by Endo

Under Irish law, a company may issue redeemable shares and redeem them out of distributable reserves or the proceeds of a new issue of shares for that purpose. We may only issue redeemable shares if the nominal value of our issued share capital that is not redeemable is not less than 10% of the nominal value of our total issued share capital. All redeemable shares must also be fully-paid and the terms of redemption of the shares must provide for payment on redemption. Redeemable shares may, upon redemption, be cancelled or held in treasury. Based on the provision of our memorandum and articles of association described above, shareholder approval will not be required to redeem our ordinary shares.

We may also be given an additional general authority to purchase our own shares on market, which would take effect on the same terms and be subject to the same conditions as applicable to purchases by our subsidiaries as described below.

Repurchased and redeemed shares may be cancelled or held as treasury shares. The nominal value of treasury shares held by us at any time must not exceed 10% of the nominal value of our issued share capital. We may not exercise any voting rights in respect of any shares held as treasury shares. We may cancel or re-issue treasury shares subject to certain conditions.

Purchases by Subsidiaries of Endo

Under Irish law, an Irish or non-Irish subsidiary may purchase our shares either on market or off market. For one of our subsidiaries to make purchases on market of our ordinary shares, our shareholders must provide general authorization for such purchase by way of ordinary resolution. However, as long as this general authority has been granted, no specific shareholder authority for a particular on-market purchase by one of our subsidiaries of our ordinary shares is required. For an off-market purchase by one of our subsidiaries, the proposed purchase contract must be authorized by special resolution of our shareholders before the contract is entered into. The person whose shares are to be bought back cannot vote in favor of the special resolution and, for at least 21 days prior to the special resolution being passed, the purchase contract must be on display or must be available for inspection by our shareholders at our registered office.

The number of shares held by our subsidiaries at any time will count as treasury shares and will be included in any calculation of the permitted treasury share threshold of 10% of the nominal value of our issued share capital. While a subsidiary holds our shares, it cannot exercise any voting rights in respect of those shares. The acquisition of our ordinary shares by a subsidiary must be funded out of distributable reserves of the subsidiary.

Bonus Shares

Under our memorandum and articles of association, upon recommendation of our board of directors, our shareholders by ordinary resolution may authorize our board of directors to capitalize any amount for the time being standing to the credit of any of our reserves (including any capital redemption reserve fund or share premium account) or to the credit of profit and loss account for issuance and distribution to shareholders as fully paid up bonus shares on the same basis of entitlement as would apply in respect of a dividend distribution.

Lien on Shares, Calls on Shares and Forfeiture of Shares

Our memorandum and articles of association provide that we have a first and paramount lien on every share that is not a fully paid up share for all amounts payable at a fixed time or called in respect of that share. Subject to the terms of their allotment, our board of directors may call for any unpaid amounts in respect of any shares to be paid, and if payment is not made, the shares may be forfeited. These provisions are standard inclusions in the memorandum and articles of association of an Irish public company limited by shares such as Endo and are only applicable to our shares that have not been fully paid up.

Consolidation and Division; Subdivision

Under our articles of association, we may, by ordinary resolution, consolidate and divide all or any of our share capital into shares of larger nominal value than our existing shares or subdivide our shares into smaller amounts than is fixed by our memorandum of association.

Reduction of Share Capital

We may, by ordinary resolution, reduce our authorized share capital in any way. We also may, by special resolution (approval by not less than 75% of the votes cast at a general meeting of our shareholders) and subject to confirmation by the Irish High Court, reduce or cancel our issued share capital in any way permitted by the Companies Act.

Election of Directors

The Companies Act provides for a minimum of two directors on the board of an Irish company, save for a private company limited by shares. Our memorandum and articles of association provide that the exact number of directors shall be fixed from time to time by resolution of our board of directors or by resolution adopted by the vote of a majority of the shareholders provided that in the event of a conflict between the resolution of our board of directors or the resolution of our shareholders, the shareholders' resolution shall govern. Our memorandum and articles of association further provide that the number of directors shall (subject to automatic increases to accommodate the exercise of the rights of holders of any class or series of shares then in issue having special rights to nominate or appoint directors in accordance with the terms of issue of such class or series) not be less than five nor more than twelve.

Our board of directors currently consists of ten members. On April 28, 2015, John J. Delucca informed our board of directors that he does not intend to stand for re-election at the 2015 annual general meeting but will continue to serve as a director of the Company until expiration of his current term on June 9, 2015, after which the board of directors will consist of nine members.

At each annual general meeting, all of our directors shall retire from office and be re-eligible for re-election. Upon the resignation or termination of office of any director, if a new director shall be appointed to our board of directors, he or she will be designated to fill the vacancy arising.

Each director shall hold office until the next annual meeting and until his or her successor is duly elected and qualified, or until his or her earlier resignation or removal.

[Table of Contents](#)

Directors are elected by ordinary resolution at a general meeting. Irish law requires majority voting for the election of directors, which could result in the number of directors falling below the prescribed minimum number of directors due to the failure of nominees to be elected. Accordingly, our memorandum and articles of association provide that if, at any general meeting of shareholders, the number of directors is reduced below the minimum prescribed by our memorandum and articles of association, which minimum is determined by our board of directors in its discretion, due to the failure of any person nominated to be a director to be elected, then, in such circumstances, the nominee or nominees who receive the highest number of votes in favor of election will be elected in order to maintain such prescribed minimum number of directors. Each director elected in this manner will remain a director (subject to the provisions of the Companies Act and our memorandum and articles of association) only until the conclusion of our next annual general meeting unless he or she is re-elected.

Removal of Directors; Vacancies

Under the Companies Act and notwithstanding anything contained in our memorandum and articles of association or in any agreement between us and a director, our shareholders may, by an ordinary resolution, remove a director from office before the expiration of his or her term at a meeting held on no less than 28 days' notice and at which the director is entitled to be heard. The power of removal is without prejudice to any claim for damages for breach of contract (e.g., employment contract) that the director may have against us in respect of his or her removal. Our memorandum and articles of association provide that our board of directors may fill any vacancy occurring on our board of directors. If our board of directors fills a vacancy, the director's term expires at the next annual general meeting. A vacancy on our board of directors created by the removal of a director may be filled by our shareholders at the meeting at which such director is removed.

Annual Meetings of Shareholders

We are required to hold an annual general meeting at intervals of no more than 15 months from the previous annual general meeting, provided that an annual general meeting is held in each calendar year following our first annual general meeting. Each general meeting will be held at such time and place as designated by our board of directors and as specified in the notice of meeting. Subject to section 176 of the Companies Act, all general meetings may be held outside of Ireland.

The only matters that must, as a matter of Irish law, be transacted at an annual general meeting are the presentation of the annual accounts, balance sheet and reports of the directors and auditors, the review by the members of the company's affairs, the appointment of new auditors and the fixing of the auditor's remuneration (or delegation of same).

If no resolution is made in respect of the reappointment of an existing auditor at an annual general meeting, the existing auditor will be deemed to have continued in office.

The provisions of our memorandum and articles of association relating to general meetings will apply to every such general meeting of the holders of any class of shares except that the necessary quorum shall be one person holding or representing by proxy at least one-half of the issued shares of such class.

Our memorandum and articles of association provide that a resolution may only be put to vote at a general meeting or of the holders of any class of shares if (i) it is specified in the notice of the meeting; (ii) it is proposed by or at the direction of the board of directors; (iii) it is proposed at the direction of a court of competent jurisdiction; (iv) it is proposed on the requisition in writing of the holder of the share as is prescribed by, and is made in accordance with, section 178 of the Companies Act; (v) the chairman of the meeting in his or her absolute discretion decides that the resolution may properly be regarded as within the scope of the meeting; or (vi) it is proposed in accordance with the procedures and requirements set out in our articles with respect to nominations of directors.

Extraordinary General Meetings of Shareholders

Extraordinary general meetings are generally held for the purpose of approving shareholder resolutions as may be required from time to time. At any extraordinary general meeting, only such business shall be conducted as is set forth in the notice thereof.

In the case of an extraordinary general meeting convened by our shareholders, the purpose of the meeting must be set out in the requisition notice. Upon receipt of any such valid requisition notice, our board of directors has 21 days to convene a meeting of our shareholders to vote on the matters set out in the requisition notice. This meeting must be held within two months of the receipt of the requisition notice. If our board of directors does not convene the meeting within such 21-day period, the requisitioning shareholders, or any of them representing more than one half of the total voting rights of all of them, may themselves convene a meeting, which meeting must be held within three months of our receipt of the requisition notice.

If our board of directors becomes aware that our net assets are not greater than half of the amount of our called-up share capital, it must convene an extraordinary general meeting of our shareholders not later than 28 days from the date that the directors learn of this fact to consider how to address the situation.

Record Date; Notice Provisions

Our memorandum and articles of association provide that our board of directors may fix in advance a record date (i) to determine the shareholders entitled to notice of or to vote at a meeting of the shareholders that is no more than 60 days and no less than 10 days before the date of the meeting, and (ii) for the purpose of determining the shareholders entitled to receive payment of any dividend, or in order to make a determination of shareholders for any other proper purpose that is no more than 60 days prior to the date of payment of the dividend or the date of any other action to which the determination of shareholders is relevant. The record date may not precede the date upon which the resolution fixing the record date is adopted by our directors.

If the register of our shareholders is closed in connection with a meeting, it must be closed for at least five days preceding the meeting and the record date for determination of the shareholders entitled to receive notice of, and to vote at, that meeting will be the date of the closing of the register of our shareholders.

Notice of an annual or extraordinary general meeting must be given to all of our shareholders and to our auditors. Our memorandum and articles of association provide for a minimum notice period of 21 days for an annual general meeting, which is the minimum permitted under Irish law. In addition, under Irish law and our memorandum and articles of association, the minimum notice periods are 21 days' notice in writing for an extraordinary general meeting to approve a special resolution and 14 days' notice in writing for any other extraordinary general meeting.

Advance Notice of Director Nominations and Other Proposals

The Companies Act provides that shareholders holding not less than 10% of the total voting rights may call an extraordinary general meeting for the purpose of considering director nominations or other proposals, as described under “—Extraordinary General Meetings of Shareholders.”

Our memorandum and articles of association provide that shareholder nominations of persons to be elected to our board of directors at an annual general meeting must be made following written notice to our secretary executed by a shareholder accompanied by certain background and other information specified in our memorandum and articles of association.

Such written notice and information must be received by our secretary not less than 60 days nor more than 90 days before the first anniversary of the date of our proxy statement for the prior year's annual general meeting.

Quorum for General Meetings

Our memorandum and articles of association provide that no business shall be transacted at any general meeting unless a quorum is present. One or more shareholders present in person or by proxy holding not less than a majority of our issued and outstanding shares entitled to vote at the meeting in question constitute a quorum.

Voting

Each of our shareholders is entitled to one vote for each ordinary share that he or she holds as of the record date for the meeting.

Irish law requires approval of certain matters by “special resolution” of the shareholders at a general meeting. A special resolution requires the approval of not less than 75% of the votes of our shareholders cast at a general meeting at which a quorum is present. Ordinary resolutions, by contrast, require a simple majority of the votes cast at a general meeting at which a quorum is present.

Irish law requires special resolutions of our shareholders at a general meeting to approve certain matters. Examples of matters requiring special resolutions include:

- amending the objects or our memorandum of association;
- amending our articles of association;
- approving a change in our name;
- authorizing the entering into of a guarantee or provision of security in connection with a loan, quasi-loan or credit transaction to a director or connected person;
- opting out of pre-emption rights on the issuance of new shares;
- our re-registration from a public limited company to a private company;
- variation of class rights attaching to classes of shares (where our articles of association do not provide otherwise);
- purchase of our ordinary shares off market;
- reduction of issued share capital;
- resolving that we be wound up by the Irish courts;
- resolving in favor of a shareholders’ voluntary winding-up;
- re-designation of shares into different share classes; and
- setting the re-issue price of treasury shares.

Variation of Rights Attaching to a Class or Series of Shares

Neither Irish law nor any of our constitutional documents places limitations on the right of non-resident or foreign owners to vote or hold our ordinary shares.

Under our articles of association and the Companies Act, any variation of class rights attaching to our issued shares must be approved by a special resolution of the shareholders of the affected class or with the consent in writing of the holders of three-quarters of all the votes of that class of shares.

The provisions of our articles of association relating to general meetings apply to general meetings of the holders of any class of shares except that the necessary quorum is determined in reference to the shares of the holders of the class. Accordingly, for general meetings of holders of a particular class of shares, a quorum consists of one or more persons holding or representing by proxy at least one-half of the issued shares of the class.

[Table of Contents](#)

Action by Written Consent

The Companies Act provides that shareholders may approve a resolution without a meeting if (i) all shareholders sign the written resolution and (ii) the company's memorandum and articles of association permit written resolutions of shareholders. Our memorandum and articles of association permit written resolutions of our shareholders where such resolutions are unanimous.

Amendment of Constituent Documents

Irish companies may only alter their memorandum and articles of association by the passing of a special resolution of shareholders.

Inspection of Books and Records

Under Irish law, shareholders have the right to: (i) receive a copy of our memorandum and articles of association and any act of the Irish government which alters our memorandum; (ii) inspect and obtain copies of the minutes of our general meetings and resolutions; (iii) inspect and receive a copy of the register of shareholders, register of directors and secretaries, register of directors' interests and other statutory registers that we maintain; (iv) receive copies of balance sheets and directors' and auditors' reports which have previously been sent to shareholders prior to an annual general meeting; and (v) receive balance sheets of any of our subsidiaries which have previously been sent to shareholders prior to an annual general meeting for the preceding ten years. Our auditors will also have the right to inspect all of our books, records and vouchers. The auditors' report must be circulated to our shareholders with our financial statements prepared in accordance with Irish law 21 days before the annual general meeting and must be read to the shareholders at our annual general meeting.

Acquisitions

An Irish public limited company may be acquired in a number of ways, including:

- a court-approved scheme of arrangement under the Companies Act. A scheme of arrangement requires a court order from the Irish High Court and the approval of a majority in number representing 75% in value of the shareholders present and voting in person or by proxy at a meeting called to approve the scheme;
- through a tender or takeover offer by a third party for all of our shares. Where the holders of 80% or more of our ordinary shares have accepted an offer for their shares in us, the remaining shareholders may also be statutorily required to transfer their shares. If the bidder does not exercise its "squeeze out" right, then the non-accepting shareholders also have a statutory right to require the bidder to acquire their shares on the same terms. If our shares were to be listed on the Irish Stock Exchange or another regulated stock exchange in the European Union, this threshold would be increased to 90%; and
- it is also possible for us to be acquired by way of a transaction with a European Union-incorporated company under the European Union Cross-Border Mergers Directive 2005/56/EC. Such a transaction must be approved by a special resolution and by the Irish courts. If we are being merged with another European Union company under the European Union Cross-Border Mergers Directive 2005/56/EC and the consideration payable to our shareholders is not all in the form of cash, our shareholders may be entitled to require their shares to be acquired at fair value.

Appraisal Rights

Generally, under Irish law, shareholders of an Irish company do not have dissenters' or appraisal rights. Under the European Communities (Cross-Border Mergers) Regulations 2008 governing the merger of an Irish company limited by shares such as Endo and a company incorporated in the European Economic Area (the European Economic Area includes all member states of the European Union and Norway, Switzerland, Turkey,

[Table of Contents](#)

Iceland and Liechtenstein), a shareholder (i) who voted against the special resolution approving the transaction or (ii) of a company in which 90% of the shares are held by the other party to the transaction has the right to request that the company acquire its shares for cash at a price determined in accordance with the share exchange ratio set out in the merger agreement.

Disclosure of Interests in Shares

Under the Companies Act, our shareholders must notify us if, as a result of a transaction, the shareholder will become interested in 3% or more of our shares; or if as a result of a transaction a shareholder who was interested in more than 3% of our shares ceases to be so interested. Where a shareholder is interested in more than 3% of our shares, the shareholder must notify us of any alteration of his or her interest that brings his or her total holding through the nearest whole percentage number, whether an increase or a reduction. The relevant percentage figure is calculated by reference to the aggregate nominal value of the shares in which the shareholder is interested as a proportion of the entire nominal value of our issued share capital (or any such class of share capital in issue). Where the percentage level of the shareholder's interest does not amount to a whole percentage this figure may be rounded down to the next whole number. We must be notified within five business days of the transactions or alteration of the shareholder's interests that gave rise to the notification requirement.

If a shareholder fails to comply with these notification requirements, the shareholder's rights in respect of any of our ordinary shares he or she holds will not be enforceable, either directly or indirectly. However, such person may apply to the court to have the rights attaching to such shares reinstated.

In addition to these disclosure requirements, we, under the Companies Act, may, by notice in writing, require a person whom we know or have reasonable cause to believe to be, or at any time during the three years immediately preceding the date on which such notice is issued to have been, interested in shares comprised in our relevant share capital to: (i) indicate whether or not it is the case; and (ii) where such person holds or has during that time held an interest in our shares, to provide additional information, including the person's own past or present interests in our shares. If the recipient of the notice fails to respond within the reasonable time period specified in the notice, we may apply to court for an order directing that the affected shares be subject to certain restrictions, as prescribed by the Companies Act, as follows:

- any transfer of those shares, or, in the case of unissued shares any transfer of the right to be issued with shares and any issue of shares, shall be void;
- no voting rights shall be exercisable in respect of those shares;
- no further shares shall be issued in right of those shares or in pursuance of any offer made to the holder of those shares; and
- no payment shall be made of any sums due from Endo on those shares, whether in respect of capital or otherwise.

The court may also order that shares subject to any of these restrictions be sold with the restrictions terminating upon the completion of the sale.

In the event we are in an offer period pursuant to the Irish Takeover Rules 2013, as amended, which are referred to in this prospectus as the "Irish Takeover Rules" or the "Takeover Rules," accelerated disclosure provisions apply for persons holding an interest in our securities of 1% or more.

Anti-Takeover Provisions

Irish Takeover Rules and Substantial Acquisition Rules

A transaction in which a third party seeks to acquire 30% or more of our voting rights will be governed by the Irish Takeover Panel Act 1997, which is referred to in this prospectus as the "Takeover Panel Act," and the

[Table of Contents](#)

Irish Takeover Rules made thereunder and will be regulated by the Irish Takeover Panel, which is referred to in this prospectus as the “Panel.” The “General Principles” of the Irish Takeover Rules and certain important aspects of the Irish Takeover Rules are described below.

General Principles

The Takeover Rules are built on the following General Principles which will apply to any transaction regulated by the Panel:

- in the event of an offer, all holders of security of the target company should be afforded equivalent treatment and, if a person acquires control of a company, the other holders of securities must be protected;
- the holders of the securities in the target company must have sufficient time and information to enable them to reach a properly informed decision on the offer; where it advises the holders of securities, the board of the target company must give its views on the effects of implementation of the offer on employment, conditions of employment and the locations of the target company’s places of business;
- the board of the target company must act in the interests of the company as a whole and must not deny the holders of securities the opportunity to decide on the merits of the offer;
- false markets must not be created in the securities of the target company, the bidder or of any other company concerned by the offer in such a way that the rise or fall of the prices of the securities becomes artificial and the normal functioning of the markets is distorted;
- a bidder must announce an offer only after ensuring that he or she can fulfill in full, any cash consideration, if such is offered, and after taking all reasonable measures to secure the implementation of any other type of consideration;
- a target company must not be hindered in the conduct of its affairs for longer than is reasonable by an offer for its securities; and
- a substantial acquisition of securities (whether such acquisition is to be effected by one transactions or a series of transaction) shall take place only at an acceptable speed and shall be subject to adequate and timely disclosure.

Mandatory Bid

Under certain circumstances, a person who acquires our shares or other voting rights in Endo may be required under the Takeover Rules to make a mandatory cash offer for our remaining outstanding shares at a price not less than the highest price paid for the shares by the acquirer (or any parties acting in concert with the acquirer) during the previous 12 months. This mandatory bid requirement is triggered if an acquisition of shares would increase the aggregate holding of an acquirer (including the holdings of any parties acting in concert with the acquirer) to shares representing 30% or more of the voting rights in Endo, unless the Panel otherwise consents. An acquisition of shares by a person holding (together with its concert parties) shares representing between 30% and 50% of the voting rights in Endo would also trigger the mandatory bid requirement if, after giving effect to the acquisition, the percentage of the voting rights held by that person (together with its concert parties) would increase by 0.05% within a 12-month period. Any person (excluding any parties acting in concert with the holder) holding shares representing more than 50% of the voting rights of a company is not subject to these mandatory offer requirements in purchasing additional securities.

Voluntary Bid; Requirements to Make a Cash Offer and Minimum Price Requirements

If a person makes a voluntary offer to acquire our outstanding ordinary shares, the offer price must be no less than the highest price paid for our ordinary shares by the bidder or its concert parties during the three-month period prior to the commencement of the offer period. The Panel has the power to extend the “look back” period to 12 months if the Panel, taking into account the General Principles, believes it is appropriate to do so.

[Table of Contents](#)

If the bidder or any of its concert parties has acquired our ordinary shares (i) during the period of 12 months prior to the commencement of the offer period which represent more than 10% of our total ordinary shares or (ii) at any time after the commencement of the offer period, the offer must be in cash (or accompanied by a full cash alternative) and the price per ordinary share must not be less than the highest price paid by the bidder or its concert parties during, in the case of (i), the 12-month period prior to the commencement of the offer period and, in the case of (ii), the offer period. The Panel may apply this rule to a bidder who, together with its concert parties, has acquired less than 10% of our total ordinary shares in the 12-month period prior to the commencement of the offer period if the Panel, taking into account the General Principles, considers it just and proper to do so. An offer period will generally commence from the date of the first announcement of the offer or proposed offer.

Substantial Acquisition Rules

The Irish Takeover Rules also contain rules governing substantial acquisitions of shares which restrict the speed at which a person may increase his or her holding of shares and rights over shares to an aggregate of between 15% and 30% of the voting rights of Endo. Except in certain circumstances, an acquisition or series of acquisitions of shares or rights over shares representing 10% or more of the voting rights of Endo is prohibited, if such acquisition(s), when aggregated with shares or rights already held, would result in the acquirer holding 15% or more but less than 30% of the voting rights of Endo and such acquisitions are made within a period of seven days. These rules also require accelerated disclosure of acquisitions of shares or rights over shares relating to such holdings.

Frustrating Action

Under the Takeover Rules, our board of directors is not permitted to take any action which might frustrate an offer for our shares once our board of directors has received an approach which may lead to an offer or has reason to believe an offer is imminent, subject to certain exceptions.

Potentially frustrating actions such as (i) the issue of shares, options or convertible securities, (ii) material acquisitions or disposals, (iii) entering into contracts other than in the ordinary course of business or (iv) any action, other than seeking alternative offers, which may result in frustration of an offer, are prohibited during the course of an offer or at any time during which the board has reason to believe an offer is imminent. Exceptions to this prohibition are available where:

- the action is approved by our shareholders at a general meeting; or
- the Panel has given its consent, where:
- it is satisfied the action would not constitute frustrating action;
- our shareholders that hold 50% of the voting rights in Endo state in writing that they approve the proposed action and would vote in favor of it at a general meeting;
- the action is taken in accordance with a contract entered into prior to the announcement of the offer; or
- the decision to take such action was made before the announcement of the offer and either has been at least partially implemented or is in the ordinary course of business.

Rights Agreement

Our memorandum and articles of association expressly authorize the adoption of a shareholders' rights plan. Irish law does not expressly authorize or prohibit companies from issuing share purchase rights or adopting a shareholder rights plan as an anti-takeover measure.

However, there is no directly relevant case law on the validity of such plans under Irish law and their interaction with the Irish Takeover Rules and the General Principles underlying the Irish Takeover Rules.

[Table of Contents](#)

Subject to the Irish Takeover Rules described above, our board of directors also has power to issue any authorized and unissued shares on such terms and conditions as it may determine and any such action should be taken in our best interests.

Certain other provisions of Irish law or our memorandum and articles of association may be considered to have anti-takeover effects, including those described in “—Capital Structure—Authorized Share Capital,” “—Preemption Rights and Share Options,” “—Removal of Directors; Vacancies,” “—Advance Notice of Director Nominations and Other Proposals,” “—Amendment of Constituent Documents,” “—Disclosure of Interests in Shares.”

Legal Name; Formation; Fiscal Year; Registered Office

Our legal and commercial name is Endo International plc. We were incorporated in Ireland on October 31, 2013 as a private limited company, under the name Sportwell Limited (registration number 534814). We re-registered to a public limited company on February 18, 2014. Our fiscal year ends on December 31 and our registered office is at First Floor, Minerva House, Simmonscourt Road, Ballsbridge, Dublin 4, Ireland.

Duration; Dissolution; Rights upon Liquidation

Our duration is unlimited. We may be dissolved and wound up at any time by way of a shareholders’ voluntary winding up or a creditors’ winding up. In the case of a shareholders’ voluntary winding-up, a special resolution of shareholders is required. We may also be dissolved by way of court order on the application of a creditor, or by the Companies Registration Office as an enforcement measure where we have failed to file certain returns.

The rights of the shareholders to a return of our assets on dissolution or winding up, following the settlement of all claims of creditors are prescribed in our articles of association.

Uncertificated Shares

Unless otherwise provided for by our board of directors or the rights attaching to or by the terms of issue of any particular shares in our capital, or to the extent required by any stock exchange, depository, or any operator of any clearance or settlement system, no person whose name is entered as a member in our register of members will be entitled to receive a share certificate for any or all shares of each class held by him or her (nor on transferring a part of holding to a certificate for the balance).

Stock Exchange Listing

Our ordinary shares are traded on NASDAQ under the ticker symbol “ENDP,” and on TSX under the ticker symbol “ENL.”

No Sinking Fund

Our ordinary shares have no sinking fund provisions.

No Liability for Further Calls or Assessments

Any of our ordinary shares offered under any applicable prospectus supplement will be duly and validly issued and fully-paid.

Transfer and Registration of Shares

An affiliate of our transfer agent, Computershare Investor Services Inc., Computershare Investor Services (Ireland) Limited, maintains the share register, registration in which will be determinative of membership in Endo. Each of our shareholders who holds shares beneficially will not be the holder of record of such shares. Instead, the depository or other nominee will be the holder of record of those shares. Accordingly, a transfer of shares from a person who holds such shares beneficially to a person who also holds such shares beneficially through a depository or other nominee will not be registered in our official share register, as the depository or other nominee will remain the record holder of any such shares.

A written instrument of transfer is required under Irish law in order to register on our official share register any transfer of shares (i) from a person who holds such shares directly to any other person, (ii) from a person who holds such shares beneficially to a person who holds such shares directly or (iii) from a person who holds such shares beneficially to another person who holds such shares beneficially where the transfer involves a change in the depository or other nominee that is the record owner of the transferred shares.

An instrument of transfer is also required for a shareholder who directly holds shares to transfer those shares into his or her own broker account (or vice versa). Such instruments of transfer may give rise to Irish stamp duty, which must be paid prior to registration of the transfer on our official Irish share register. However, a shareholder who directly holds shares may transfer those shares into his or her own broker account (or vice versa) without giving rise to Irish stamp duty, provided there is no change in the ultimate beneficial ownership of the shares as a result of the transfer and the transfer is not made in contemplation of a sale of the shares.

Any transfer of our ordinary shares that is subject to Irish stamp duty will not be registered in the name of the buyer unless an instrument of transfer is duly stamped and provided to the transfer agent. Our articles of association allows us, in our absolute discretion, to create an instrument of transfer and pay (or procure the payment of) any stamp duty, which is the legal obligation of a buyer. In the event of any such payment, we are (on our own behalf or on behalf of our affiliates) entitled to (i) seek reimbursement from the buyer or seller (at our discretion), (ii) set-off the amount of the stamp duty against future dividends payable to the buyer or seller (at our discretion) and (iii) claim a lien against our ordinary shares on which we have paid stamp duty. Parties to a share transfer may assume that any stamp duty arising in respect of a transaction in our ordinary shares has been paid unless one or both of such parties is otherwise notified by us.

Our memorandum and articles of association delegate to our secretary (or duly appointed nominee) the authority to execute an instrument of transfer on behalf of a transferring party.

In order to help ensure that the official share register is regularly updated to reflect trading of our ordinary shares occurring through normal electronic systems, we intend to regularly produce any required instruments of transfer in connection with any transactions for which we pay stamp duty (subject to the reimbursement and set-off rights described above). In the event that we notify one or both of the parties to a share transfer that we believe stamp duty is required to be paid in connection with the transfer and that we will not pay the stamp duty, the parties may either themselves arrange for the execution of the required instrument of transfer (and may request a form of instrument of transfer from us for this purpose) or request that we execute an instrument of transfer on behalf of the transferring party in a form determined by us. In either event, if the parties to the share transfer have the instrument of transfer duly stamped (to the extent required) and then provide it to our transfer agent, the buyer will be registered as the legal owner of the relevant shares on our official Irish share register (subject to the matters described below). The directors may suspend registration of transfers from time to time, not exceeding 30 days in aggregate each year.

General

We may sell the debt securities, including original issue discount securities, at par or at a substantial discount below their stated principal amount. Unless we inform you otherwise in a prospectus supplement, we may issue additional debt securities of a particular series without the consent of the holders of any other debt securities of such series or any other series outstanding at the time of issuance. Any such additional debt securities, together with all other outstanding debt securities of that series, will constitute a single series of securities under the indenture.

We will describe in the applicable prospectus supplement any other special considerations for any debt securities we sell which are denominated in a currency or currency unit other than U.S. dollars. In addition, debt securities may be issued where the amount of principal and/or interest payable is determined by reference to one or more currency exchange rates, commodity prices, equity indices or other factors. Holders of such securities may receive a principal amount or a payment of interest that is greater than or less than the amount of principal or interest otherwise payable on such dates, depending upon the value of the applicable currencies, commodities, equity indices or other factors. Information as to the methods for determining the amount of principal or interest, if any, payable on any date, the currencies, commodities, equity indices or other factors to which the amount payable on such date is linked will be described in the applicable prospectus supplement.

United States federal income tax consequences and special considerations, if any, applicable to any such series will be described in the applicable prospectus supplement. Unless we inform you otherwise in the applicable prospectus supplement, the debt securities will not be listed on any securities exchange.

We expect most debt securities to be issued in fully registered form without coupons and in denominations of \$200,000 and any integral multiple of \$1,000 in excess thereof. Subject to the limitations provided in the indenture and in the applicable prospectus supplement, debt securities that are issued in registered form may be transferred or exchanged at the designated corporate trust office of the trustee, without the payment of any service charge, other than any tax or other governmental charge payable in connection therewith.

Unless and until it is exchanged in whole or in part for the individual debt securities, a global security may not be transferred except as a whole by the depository for such global security to a nominee of such depository or by a nominee of such depository to such depository or another nominee of such depository or by such depository or any such nominee to a successor of such depository or a nominee of such successor. The specific terms of the depository arrangement with respect to any debt securities of a series and the rights of and limitations upon owners of beneficial interests in a global security will be described in the applicable prospectus supplement.

DESCRIPTION OF SHARE PURCHASE CONTRACTS AND SHARE PURCHASE UNITS

We may issue share purchase contracts representing contracts obligating holders to purchase from us, and us to sell to the holders, a specified or varying number of our ordinary shares at a future date or dates. The price per share and the number of shares may be fixed at the time the share purchase contracts are entered into or may be determined by reference to a specific formula set forth in the share purchase contracts. The share purchase contracts may be entered into separately or as a part of a share purchase unit that consists of (a) a share purchase contract; (b) warrants; and/or (c) debt securities or debt obligations of third parties (including United States treasury securities or other share purchase contracts), that would secure the holders' obligations to purchase ordinary shares under the share purchase contract. The share purchase contracts may require us to make periodic payments to the holders of the share purchase units. These payments may be unsecured or prefunded and may be paid on a current or on a deferred basis. The share purchase contracts may require holders to secure their obligations under the contracts in a specified manner.

The applicable prospectus supplement will describe the terms of any share purchase contract or share purchase unit and will contain a summary of certain United States federal income tax consequences applicable to the share purchase contracts and share purchase units.

The initial purchasers of our securities, as well as their transferees, pledges, donees or successors, all of whom we refer to as “selling shareholders,” may from time to time offer and sell the securities pursuant to this prospectus and any applicable prospectus supplement.
